34th Annual CHAP HOMESCHOOL CONVENTION

June 10, 8 a.m. to 6 p.m. | June 11, 8 a.m. to 5 p.m.

What is CHAP? | CHAP is an acronym for Christian Homeschool Association of Pennsylvania, a nonprofit corporation founded to encourage and support families interested in home education.

CHAP assists parents in understanding and fulfilling the law's requirements and is affiliated with two national organizations: Home School Legal Defense Association and The National Center for Home Education. CHAP provides leadership and direction on issues facing Christian homeschoolers on a national and statewide basis.

Mission | CHAP is called to equip, connect, encourage, and protect those interested in homeschooling.

Purpose | Raising the next generation to follow Christ in all of life.

CHAP's Statement of Faith |

- The Bible is the inspired and infallible Word of God and constitutes His completed and final revelation to man. The Bible, in its original autographs, is without error in whole and in part.
- God has existed from all eternity in three persons: God the Father, God the Son, and God the Holy Spirit.
- Jesus Christ was God in human flesh, being fully God and fully man, except without sin.
- All men are in violation of God's righteous requirements and His holy character both by nature and act, and are therefore under His wrath and just condemnation.
- The central purpose of the coming of Jesus Christ was to pay the penalty for man's sin through His substitutionary atoning death on the cross, the successful accomplishment of which was attested to by His subsequent visible, bodily resurrection.
- Salvation is offered as a gift, free to the sinner. This gift must be responded to by individual faith, not trusting in any personal works whatsoever, but in the sacrificial death of Jesus Christ alone.
- All human life is sacred and created by God in His image. We are therefore called to defend, protect, and value all human life.
- God wonderfully and immutably creates each person as male or female.
- The term "marriage" has only one meaning: the uniting of one man and one woman in a single, exclusive union, as delineated in Scripture. God has commanded that no intimate sexual activity be engaged in outside of a marriage between a man and a woman.

You used to think homeschooling was the best thing since sliced bread, but now you're feeling like burnt toast. Take heart - you're not alone! No one homeschools because it's easy. Topics include: why homeschool, how to get started in PA, a typical day, curriculum, record keeping, testing, portfolios, and evaluations.

Critical Thinking in a Relativistic World – Holly Varum

The world our children live in today is quite different from the one we grew up in. They are constantly bombarded with post-modernism, which says whatever you want to believe is your "truth." Now more than ever, we need to provide them with the tools to discern and combat the lies being hurled at them on a daily basis, even as they are being homeschooled. This session will talk about God's expectations, what that means for you, and how your expectations will change you and those around you.

after a hard day of homeschooling? Maybe you've forgotten what his needs are. Would you like your husband to take a more active role in homeschooling? Maybe your husband refuses to be involved in training your children. Join me as we look at your role, not as a homeschooling mom, but as a homeschooling WIFE. Your husband will thank you for coming! The discussion will be led by a real husband of a homeschooling mom.

This session will address some of the amazing intricacies of the brain, the principles of brain-based learning, how boys and girls learn differently, and how God's Word teaches us to think for learning retention.

***Lifting the Lid of Influence for the Glory of God – firstBible International** Influencing your Children for the Glory of God

3:30 pm

Fostering a Hate of Learning – Todd Wilson

The homeschool movement coined and promoted the idea of fostering a LOVE of learning...and yet most homeschooling moms have fostered a "hate" of learning. Instead of inspiring their children to love exploration, discovery, and learning, all of which homeschool SHOULD foster, moms find their children fighting them tooth and nail to "do school."

Homeschool Investigation: Answer the Door with Confidence – Dan Beasley

The first step in safeguarding your homeschool is knowing your state's homeschool law. Dan regularly communicates with school officials, social workers, and others regarding the legal requirements and legitimacy of homeschooling. In this workshop, Dan makes sure you know what is legally required of you while equipping you to confidently handle interactions with government officials.

Keynote - Choose the Hard Things or How to Keep Going When You Feel Like Giving Up – Todd Wilson

Homeschooling is hard, parenting is hard, and marriage...well, that's way hard. And that's OK and even normal. Trouble is we don't like hard. We want easy, fast, and cheap, and at the same time we want successful results.

But the truth is that good things are hard and hard things are good, and they go hand in hand. Sadly, most people don't ever experience the good because they can't handle the hard. They put the hard thing off, hoping it will get easier, or they avoid it all together, and all they end up with is a pile of regrets.

Here's the good news: you can handle the hard. In fact, if you're faced with two choices, pick 'HARD.'

During this hour, you'll laugh with Todd as he shares how to embrace the hardness while keeping your eye on the joy and experience God's best for you.

It's a fact! The only thing tougher than being a homeschooling mom is...being married to a homeschooling mom! Dad, your wife needs your help. Come join me as we discuss how to support and assist our wives in the homeschooling journey. We'll also do a lot of laughing, as I encourage men to be encouragers of their homeschooling wives.

New Homeschooler Workshop: What now? – Christy Rucker

After you've filed all your papers to homeschool, what happens then? What do I do with these children all day? What does a day of homeschooling look like? Are there different ways to homeschool and what do they look like? How do you find the perfect curriculum? What counts as "school?"

Biblical Worldview in Everyday Life – Holy Varnum

The world, the flesh, and the devil are vying for the minds of our kids, often in such subtle ways that it goes unnoticed until they are in crisis. This session will delve into multiple venues in which our thoughts, our time, and our choices are influenced by our worldview. We will put many of these examples to the test of a biblical worldview with the goal of heightening awareness of where "little foxes" creep in and seek to spoil (Song of Solomon 2:15).

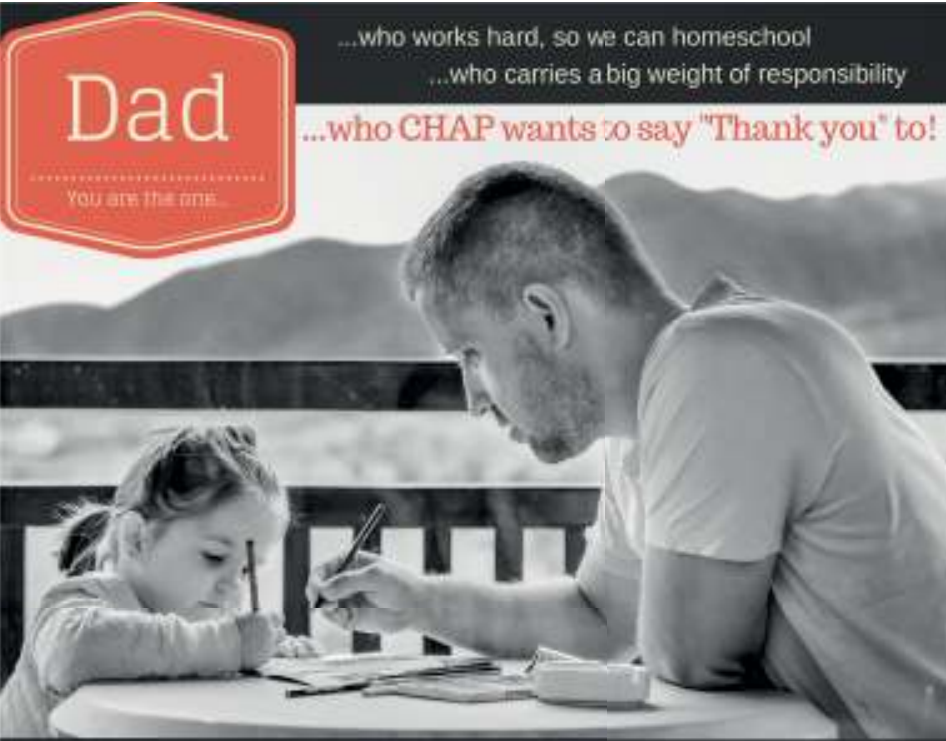

***Beating the Odds: Helping Your Children Find Faith That Lasts** – Scripture Memory Fellowship

Two-thirds of young people who were raised in the church walk away from faith in college. In this workshop, you'll learn how to give your children a solid foundation for their faith and how to equip them for success in the spiritual battles of adulthood.

How to Comply with the PA Homeschool Law – Christy Rucker

Pennsylvania is one of the most regulated states for homeschooling. It is considered one of the “hardest” states to homeschool in, but it’s not as difficult as it seems. Come hear about how easy it is to meet the law requirements, see what a simple portfolio looks like, hear a description of what an evaluation looks like, and ask all your homeschool law related questions.

Raising Boys to Be the Men that God Wants Them to Be – Roy Smith

Presently there is a big identity crisis among males regarding what a man is. There is no clear transition from childhood to manhood, and the culture has defined men simplistically. As a result, many fathers are relationally isolated and emotionally disconnected, leaving them at a loss for how to lead boys into manhood. This workshop will address the culture’s attack on boys/males, the impact of biology on boys’/males’ learning style, mentoring and educational principles to help boys develop into honorable men and concrete action steps moms and dads can take in the developmental process of boys.

*RightStart™ Fractions – RightStart Mathematics by Activities for Learning

Do you remember the groans in math class when the word ‘fraction’ was brought up? Well, there is a better and less painful way of teaching fractions! Fractions are, dare I say, fun when they are taught the right way. What’s the right way to teach them? Come and find out! Find the beauty and simplicity of fractions using RightStart Math.

What to do When Your Plan Doesn’t Go According to Plan – Todd Wilson

We like things nice and neat, orderly, and with a predictable outcome, but most of the time OUR plans don’t ‘come together’ as we hoped. Instead, our plans often fall apart, disintegrate right before our eyes, and leave us dumbfounded and stunned.

I’ve talked to plenty of homeschooling parents who were sold a plan. They followed the plan and then later stood before me with tears in their eyes because the plan “didn’t come together.”

“We did everything THEY said to do,” they say. “We didn’t have TV...we homeschooled...we ate organic...we only

wore dresses...we sheltered and protected.... we practiced courtship...they played the violin...we emphasized the classics...we never missed family devotions...we emphasized purity...we birthed our children at home...we had a home business” and on and on the list goes. They feel betrayed, angry, and lost....and their children are starting ‘tell all’ websites!!!

I have to admit that several years ago when I heard their sob stories, I inwardly wondered what they had done wrong. I believed that they must have gotten the WRONG plan...or didn’t carry the plan out according to the instructions. And while some of that may be true, I know NOW that sometimes our plans don’t come together because God has a DIFFERENT PLAN.

Join me as we take an honest and humorous look at plans, why they fall apart and what to do when they have.

The Future of Homeschooling: What’s Next? – Dan Beasley

In the wake of the COVID-19 pandemic, homeschooling has exploded. Millions of new homeschool students are experiencing the benefits of a customized education at home. But the growth of homeschooling has also caught the eye of policymakers who want to help—and those who don’t. Dan will bring you up to date on homeschooling trends and equip you to advance homeschooling freedom into the future.

Creating Your Own Unit Studies – Barb Beideman

The goal of this session is to share the joy of designing and teaching unit studies. Learn how this unique approach to teaching uses real-life experiences, books, games, projects, and other resources to encourage students to deeply explore topics and to become life-long learners. Discover ways to integrate subjects to make learning more meaningful and fun. Realize the wealth of knowledge to be gained through unit studies as well as easy methods of constructing them.

*Teach Your Child to Read with ABC See, Hear, Do – Playful Learning Press

Created with active children in mind, the ABC See, Hear, Do method of teaching

reading incorporates movement with literacy skills, thereby enhancing long-term retention & brain development—and making learning (and teaching) so much fun! In this workshop, ABC See, Hear, Do founder & creator, Stefanie Hohl, discusses her innovative program, where it came from, and why it works. She’ll outline best practices for utilizing ABC See, Hear, Do resources in your home classroom, and attendees will leave with a practical learn-to-read gameplan tailored to their children’s specific needs.

2:30 pm

Answers for Homeschooling: Top Questions Critics Ask – Israel Wayne

Many homeschoolers struggle with self-doubt and/or criticism for their decision by well-meaning friends and family. In this session, Israel will tackle some of the top objections people raise about home education and will give statistics and fact-based answers to help give you confidence to defend your choice to home educate.

Simplify Your Homeschool: Make Learning at Home More Manageable – Christy Rucker

Simplifying your homeschool could be the difference between a parent who makes it through the long haul and one who gives up after a few years, sending her child back to school because she “can’t do this anymore.” This workshop is full of practical ideas to implement and philosophical thoughts to ponder. Bring your specific questions about a trouble spot in your homeschool and let’s see if simplifying will smooth it out.

Relationship Basics: What You Need to Know for Any Relationship – Jonathan Brush

People are everything. Relationships are the foundation that gives meaning to our lives. Today we’re more connected than ever before and at the same time more isolated than ever before. Why? A lot of people no longer know the basics principles of great relationships. This session teaches those basic relationship principles.

While in a speaking session, kindly please:

- silence any electronics
- refrain from recording on personal devices
- remove any “overly social” young children

***Get Up and Move** – BJU Press
Homeschool/Homeworks by Precept

We all know we need to move and exercise to maintain good health. But movement also helps our minds as well as our bodies. Come learn how getting out there and moving those big muscles helps kids with their thinking, comprehension, and other areas important for learning.

3:30 pm

Avoiding and Recovering from Homeschool Mistakes – Israel Wayne

Drawing from over 40 years of experience in the home-education movement, Israel will help you to avoid some of the top errors many parents make in the homeschooling process. The tips offered in this session can save you hundreds of dollars and perhaps years of regret from committing these costly errors.

Raising Politically Incorrect Pink and Blue Kids in a Purple World – Todd Wilson

All children are created equal. Girls and boys have equal importance and significance, but there are certain responsibilities that we

need to train our boys and girls differently. It's not archaic or about inequality; it's Biblical parenting and our children need us to prepare them for the future.

Join Todd as he tackles this sticky topic and combines laughter, truth, and practicality together for a vital topic in today's wacky and purple world.

What's Your Bent? (Personality Matters when it comes to learning.) – Holly Varnum

If you have more than one child, you know first-hand that they come to us uniquely "crafted" by our Heavenly Father--no two are alike! This fact is especially challenging when homeschooling and trying to plan what to teach. This session will:

- Address the imperative given to us in Proverbs 22:6 to "Train up a child in the way he should go [and in keeping with his individual gift or bent]" (Amplified Bible),
- Include several "personality" test options to help you understand your children and how they learn best, and
- Provide teaching/learning strategies to help you utilize this information to inform your homeschooling efforts.

***Raising our Boys to be True Gentlemen** – The Etiquette Factor

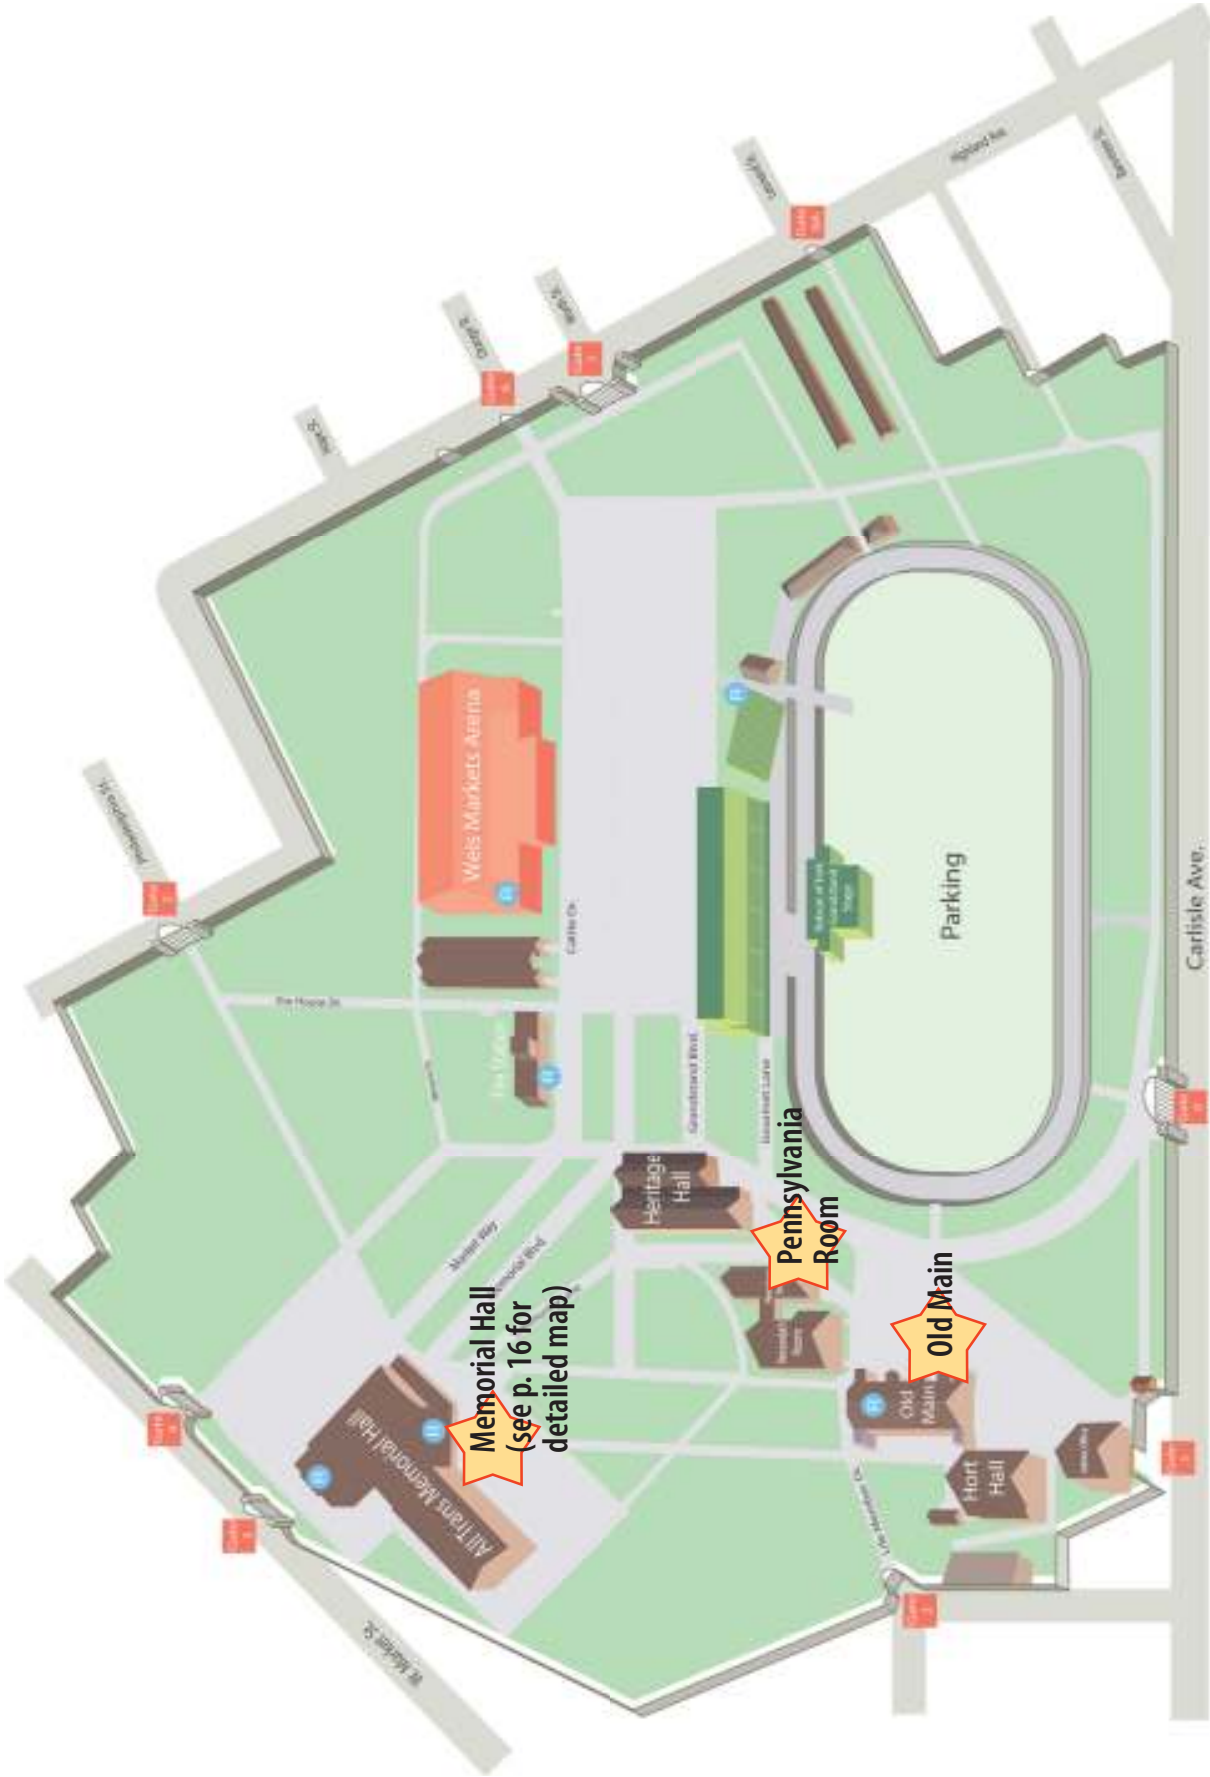

Imagine what it will feel like as you watch your son, even while he is young, be an example to those around him of what a true gentleman looks like, acts like and is. His focus is on others. He notices without effort when someone near him is in need, and then quickly acts. He guards his tongue knowing that his words have impact and his desire is to only have impact for good.

He is kind to his family and understands that his example to his family is his duty as a son of God. He is a leader among his peers and although his standards are high, those in his presence do not feel judged by him, but accepted and valued. His goals are lofty; however he looks forward with anticipation to being a righteous husband and father one day. He is a true gentleman.

Parents, this Master Class will help you understand how to create the example your son needs to become this gentleman. You don't want to miss this. He needs you.

CONVENTION
JUNE 10 & 11, 2022

things I want to change,
consider or look into

Thank you to our convention sponsors!

LANCASTER BIBLE COLLEGE
YOUR JOURNEY. OUR FOCUS.

Thank you to Staff and Volunteers

We would like to thank all the wonderful staff and volunteers that made this year's convention possible. A convention of this magnitude takes many hands to execute. Your Pennsylvania state homeschool convention is only successful because of:

- God's grace
- Your support
- Each family who has served throughout the years
- The current CHAP team

This year's convention team includes:

- Rob & Sylinda Alfred
- Bill Day
- Jim & Becky Fahringer
- Bob & Alice Finley
- Margaret Grimm
- Jesse & Hillary Barrick
- Greg & Diana Merkel
- Sandy Myers
- Corinne Wolf

And our faithful CHAP board:

- Brad & Kathy Bastedo
- Dave & Kathy Snyder
- Steve & Ginger Wayde

Aside from our convention team, CHAP also depends on hundreds of convention volunteers from across Pennsylvania and surrounding states. No matter the level of time commitment, all of our volunteers are vital to convention success so we say THANK YOU!

—Steve Wayde, CHAP Board Chairman
